The disclosure is objected to because of the following informalities:
 In line 9 of claim 36, "length" should be –lengths--. Appropriate correction is required.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 3. Claims 1-5, 16, 42 and 43 are rejected under 35 U.S.C. 102(b) as being anticipated by Woolslayer et al. (U.S. Patent No. 3,887,086, hereinafter referred to as Woolslayer '086).

Woolslayer '086 discloses a drill pipe storage apparatus including bin 3,4, horizontal pipe support members 5 and drive mechanisms 16, 17, 19, 21 for moving the members between positions in the array and removed from the array. Note especially Fig. 5 of Woolslayer '086.

- 4. Claims 6, 17-35 and 44-48 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
- 5. Claims 7-15, 36-41 and 49-53 are allowable.
- 6. Applicant's arguments with respect to claims 1-5, 16, 42 and 43 have been considered but are most in view of the new ground(s) of rejection.
